## Education

### Simon Fraser University

Fall 2014 – Fall 2019

Bachelor of Science in Computing Science  
Burnaby, BC

## Experience

### Douglas College / UI/UX Designer

Spring 2020 – Present

- Created wireframes, mockups, and prototypes to test and verify new designs with clients and end users.
- Defined user journeys, information architecture and features based on target user research and business requirements.
- Planned and conducted remote usability studies to assess end user experience and combined results into actionable insights.

### Freelance Designer

Summer 2017 – Present

- Produced high-quality deliverables for all visual design stages from concept to final delivery for web and print mediums.
- Partnered with the marketing and product design teams to develop graphics, content, and interactivity of the application.
- Led the research, testing, and web development of projects.

### Deloitte / Technology Consulting Virtual Internship

Fall 2019

- Conducted industry research to identify technology aspects for project implementation.
- Determined technology requirements by conducting market research.
- Developed a project implementation plan to provide project delivery guidelines and cost estimates.
